Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Reaches the limit of free workouts or features. • Browses the Fit Buddy Pro feature list. • Compares pricing options (monthly vs. annual)	• Initiates the 7-day free trial. • Generates a personalized 12-week workout and meal plan. • Syncs their smartwatch to the app.	• Completes the 12-week premium program. • Posts a progress update in the community forum. • Transitions to an annual paid subscrib
Touchpoint <i>What part of the service do they interact with?</i>	• In-app upgrade prompt (pop-up). • Premium pricing/landing page. • Feature comparison chart.	• Apple/Google Pay subscription gateway. • AI-driven personal plan generator. • Wearable device integration settings.	• In-app community feed. • Transformation photo uploader. • Subscription management dashboard.

Customer Thought <i>What is the customer thinking?</i>	• "I've gotten good results for free, but is it worth paying for? I really want those advanced analytics." • "Let me just try the 7-day trial and see if the meal plans are actually good."	• "Wow, this meal plan actually looks easy to cook. Having my exact macros calculated saves me so much time." • "Seeing my live heart rate on the screen is a game changer."	• "I can't believe the progress I've made. The community support really kept me going on the hard days." • "The annual plan is definitely worth the investment."
Customer Feeling <i>What is the customer feeling?</i>	• Hesitant about spending money. • Curious about the locked features. • Weighing value versus cost.	• Excited to try the new tools. • Highly invested and committed. • Feeling like a "VIP" user.	• Triumphant and confident. • Socially connected to other users. • Highly satisfied and loyal to the brand.

Process Ownership <i>Who is in the lead on this?</i>	• Hesitant about spending money. • Curious about the locked features. • Weighing value versus cost.	I want to work out, but I just don't have the time to commute to a gym." "I don't know where to start; there is too much conflicting fitness advice out there." "I need a routine that is quick and can be done at home without expensive equipment."	• Implement auto-suggestions for the very first workout based on the user's onboarding data to eliminate decision fatigue. • Add audio cues and haptic feedback so users don't have to constantly look at their screen while exercising.
Opportunity	focus, specific 5–10 minute dynamic warm-up drills, numbered exercises with sets,	I hope this app actually keeps me accountable and isn't too complicated to navigate." "Am I even doing these exercises correctly? I don't want to accidentally injure myself." "I'm worried I'll just abandon this app after a week like the last three I tried."	muscle gain, weight loss, endurance, strength), and intensity level (low, medium, high). Daily Structure: Formats each day
